

**RESEARCH**

## OSU Research on the Big Screen

### Call for Booths

The Office of the Vice President for Research would like to announce a new opportunity for faculty, staff and student involvement in Research Week 2018. To kick off Research Week, we will host “OSU Research on the Big Screen” to highlight collaborative facility<sup>1</sup> capabilities across the OSU system. After the video, “OSU Spotlights Collaborations Advancing Research,” attendees will have the opportunity to enjoy movie refreshments while visiting with representation from collaborative research facilities all across Oklahoma State University. We are requesting information from faculty and/or facility managers who would be interested in having booth space at this kick-off event to highlight the collaborative possibilities of their facilities. This opportunity will be held Monday, February 19, 2018 from 1:30 – 3:30.

### **Deadline: December 04, 2017**

#### **Submission information:**

- Name of facility, location, and brief (less than 100 words) statement of collaborative capabilities
- Brief description of what your table will include (i.e. poster, brochures, etc.). Note that the VPR office will provide an 8’ table covered with linens.
- Identify one to two people to sit at the table for approximately 1.5 hours and note the point of contact for participation in this event
- Send submissions to [vpr@okstate.edu](mailto:vpr@okstate.edu). Facilities chosen to participate will be notified prior to December 21, 2017.

**\*\*After the event, the VPR office will provide funding of \$250 to each participating facility to offset the costs of their booth.\*\***

Hosting of this event, including the facilities, refreshments and marketing will be provided by the VPR office. If there are any questions, please contact [amy.dronberger@okstate.edu](mailto:amy.dronberger@okstate.edu).

<sup>1</sup>Facilities are broadly defined and include any collaborative space including, but not limited to, laboratories, design labs, etc.
